Brennan continues to respond to customer needs by introducing new and expanded lines of fittings. Like our other products, all of the new Brennan fittings are in stock now and available for immediate delivery.

In Stock Now And Ready To Ship

We have one of the largest selections of fittings available anywhere. And, we stock the products your customers want — steel, stainless steel or brass...standards or specials...in more than 15,000 different sizes and configurations.

State-Of-The-Art Facility

With the consolidation of our manufacturing in a state-of-the-art facility, we have more capabilities than ever before. This includes producing a wide range of close tolerance, precision-machined fittings that meet or exceed J.I.C., S.A.E. and international specifications.

NEW! Instrumentation Fittings

The new Instrumentation Tube Fittings are double-ferrule fittings that eliminate potentially hazardous and expensive leaks in instrumentation, process, pneumatic, hydraulic, gas and other tubing systems.

NEW! SAE Flange Fittings

For those requiring SAE fittings, we have introduced J518 Split-Flange Fittings and 4-Bolt Flange Fittings. They are available in a variety of sizes to meet a broad range of applications.

Fast Delivery And Service

The five fully stocked Brennan warehouses are located across North America to serve you better. Our dedicated sales and customer service staffs are here to expedite your orders and provide expert technical assistance. All hydraulic and pneumatic fittings and adapters are in stock now and available for immediate delivery.
