

PRECISION MACHINING

BRENNAN MANUFACTURING GROUP CANADA

Since 1953, Brennan has provided customers throughout the world with the highest quality critical flow components including a large number of different types of hydraulic, pneumatic and instrumentation fittings, adapters, and accessories. Now, this local Brennan Canadian manufacturing expertise is available to you.

Our components rise to the standard of industries demanding quality and precision, such as HVAC, pharmaceutical, automotive, and industrial plumbing applications; a standard we apply to any industry. We employ 4 Fanuc controlled CNC machining centers, along with high productivity single-spindle turning machines. Our state-of-the-art equipment consistently achieves the highest level of precision, whether starting from various cross section bars, plate, or tubing up to 8" diameter, with tolerances as tight as +/- .001". We engineer extraordinary results for all our customers, every single day. That is our kind of art.

Along with precision machining, we offer welding, ultrasonic flow testing and prototyping services based on customer requirements, giving customers the convenience and efficiency of a sole trusted source.

Brennan's Canadian Manufacturing Team of skilled technicians are about more than form following function. They continually improve our processes, analyzing the flow of the manufacturing environment, enhancing the experience for our industry partners. We are confident we can support your business needs, and are well positioned to provide you solutions.

OUR MANUFACTURING EQUIPMENT

10 BROWN & SHARPE SINGLE SPINDLE AUTOMATIC SCREW MACHINES

1	1/2" RD capacity
2	3/4" RD capacity
1	1-3/8" RD capacity
7	1-5/8" RD capacity
1	2" RD capacity

1 ACME GRIDLEY SIX SPINDLE AUTOMATIC SCREW MACHINES

1	1" RD capacity
---	----------------

4 FANUC CONTROLLED CNC MACHINES

1	FENCO DURGA - 2" Cap, 2 Axis, 2 Turret, 12 ft. bar feed automatic lathe
1	LEADWELL - 2" Cap, 2 Axis, 3 Jaw, 12 ft. bar automatic lathe
1	MYIANO - 8" Cap, 3 Jaw, 2 Axis chucking lathes
1	TONGAI - 8" Cap, 3 Jaw, 2 Axis chucking lathes

MANUFACTURING FACILITY

12,000 total square feet

ENGINEERING

Solidworks 3D modeling corporate input support

Professional Engineering Ontario License

QUALITY ASSURANCE EQUIPMENT

Thread Ring & Plug Gauges for Various Threads

Pin Gage Set GO/NO GO Handles

Digital Caliper with SPC Output

MATERIAL HANDLING EQUIPMENT

5000 lb. capacity HYSTER Material Handling

WASH AND ASSEMBLE EQUIPMENT

Rotary (Drum) Parts Washer

Ultrasonic Parts Washer

Certified to
ISO 9001:2015

Precisely Right.
