- In accordance to SAE J 512
- Brennan's JIC/NPT/SAE line commonly stocked in Brass.
- High forged and low pressures extruded brass lines available.
- Push-On Hose Fittings offered in 1/4"-1" Hose
- Brass DOT line-up coming soon. Reach out for pricing and availability

### BRASS PRODUCTS

- 2-piece Stainless Steel Design
- Offered for True Bore Hose
- Connections to Imperial and DIN/Metric and BSP are available.
- Crimp specs for most major manufacturers

### HOSE FITTINGS

- Standard Series Clamps - up to 4" O.D
- Heavy Series Clamps - up to 5" O.D
- Twin Series Clamps - up to 1.65" O.D
- Available in Complete Kits or Individual Components
- 304 and 316 Stainless Steel
- Zinc Nickel or Unplated Carbon Steel also stocked
- Wide range of P-Clamp size

### CLAMP PRODUCTS

### HAM-LET & VERSA

## EXTRAORDINARY VALUE

### Availability

- 13 fully stocked distribution centers worldwide
- Widest selection of fittings and adapters in the industry.
- Commitment to inventory and ability to reserve stock for partnered distributors
- Engineered Specials

### Quality

- Controlled manufacturing locations across the globe.
- Products built to same master print.
- Standard plating which exceeds industry standards.
- Full traceability through batch coding.
- BI Verify to ensure correct order fulfillment.

### Support

- Global CSR team
- Educational materials (blog, whitepapers, Brennan University)
- Thread Identification tools
- Lead generation
- Literature
- Pressure rating, cross reference, and CAD tools

### Innovation

- New e-commerce system with live inventory information
- BI Verify
- Bridge Server
- Proprietary Brennan Black™ corrosion resistant coating
